Keysight World
TECH DAYS

Automotive Track

As the automotive sector undergoes unprecedented transformation, it's crucial to stay ahead of the curve. At Keysight World Tech Days India 2024, industry leaders, engineers, and innovators will come together to delve into topics such as electrification, connectivity, autonomous driving, and vehicle electrification.

Experience firsthand how Keysight's cutting-edge solutions empower automotive professionals to overcome technical hurdles, optimize performance, and ensure safety and reliability in every vehicle component. From advanced driver-assistance systems (ADAS) to in-vehicle networks and battery management systems, our comprehensive suite of tools and technologies is designed to accelerate development and drive success.

AGENDA

Timestamp	Plenary Sessions
00:01:44	Explore next generation technology innovation with Keysight Technologies | Mombasawala Mohmedsaeed
00:25:25	Design. Emulate. Validate. Perfect it with Keysight | Carol Leh

Timestamp	Papers
00:43:22	Advance Test Strategies for Evolving EV Batteries | Executive Perspective | Michael Reser
01:25:43	Accelerate Autonomous Vehicle Test | Bring Real -World Testing of Autonomous Driving Technology into Your Lab | Prasad Petkar
01:54:58	Paradigm Shifts for Battery Innovations from Test | Teja Addala
02:32:28	Future of Electric Vehicle (EV) Battery and Charging Manufacturing: Strategies in scaling for sustainability and growth | Conrad Teow
02:56:41	Revolutionizing EV Charging Test | Trends, Use Cases And Solutions | Wolfgang Kalthoff
03:36:14	Revolutionizing and Securing Vehicle Networking: Automotive Ethernet and Cybersecurity | Nitin Nigam
04:04:17	Automotive Cybersecurity Test Platform | Pankaj Kumar
